

Not Luck But the Exact Science of Making Good Bread

Is what makes WESTON BREAD so delicious and popular. You, madam, have your bad luck in making bread, as does every other housewife who does her own baking. You can't help it. You haven't the ovens, machinery or the knowledge of perfect bread making, for which we have spent years in acquiring. Why not let us do the baking? You'll get as good or better bread—cheaper than you can bake it yourself and without the work and worry.

AMUSEMENTS.

At the Grand.

Clarence Bennett's successful drama, "The Holy City," which comes to the Grand tomorrow night, is a play which will appeal not only to those who are regular patrons of the theater, but will interest those who are merely casual theatergoers and also those who rarely ever attend through prejudice. This play with Biblical setting, tells the Bible story of the passion and death of Christ in dramatic form.

Seats are on sale today for the play to be given Thursday night by the Washburn Dramatic club. From the manner in which the city people are taking advantage of the early sale of seats it looks as though "The Show Girl" will treat a big audience on April Pools night. Under the close supervision of Miss Nellie Lincoln "The Show Girl" is rapidly coming to the polished form and when it is presented the college actors and actresses will be in the "pep" of condition.

The Ben Greet Players who come to the Grand Friday afternoon for a matinee only in company with the Russian Symphony orchestra, will furnish Topekans an opportunity to see the combined labors of two creative geniuses, Mendelssohn and Shakespeare, supplemented by the work of the splendid body of musicians composing the orchestra under the direction of Modest Altschuler and the work of the Great Players with their Shakespearean interpretations. The efforts of the premiere danseuse, soloists, and the children's chorus and ballet, are said to be feature of more than ordinary interest.

When Lyman H. Howe brings his moving pictures to the Grand for three performances, Friday night, and Saturday matinee and night, Topekans will have an opportunity of seeing the last Grand Prix automobile race in France. This race is now prohibited by the French government on account of the many perils involved. Another interesting feature of the Howe pictures is the endurance tests to which the Italian cavalry was recently subjected and which Theodore Roosevelt while president ordered for our own cavalry.

At the Majestic.

There was plenty of music at the Majestic at their first performance—this on account of the late arrival of some of the features which made it necessary for the orchestra to play every piece they had on hand.

In spite of the fact that it is the only vaudeville in town at the present time and holds the entire field, the show at the Majestic is as good as it ever was. Perhaps the best attraction on the programme is Kikuda, the Japanese juggler. His performance with the batons and balls is the best ever seen in the city. Glenn Wagner followed this act with an illustrated song, "Red Wing." "Red Wing" is as old as the circuit but it was well illustrated and well rendered—to the entire satisfaction of the audience. A unique comedietta, "Locked Out at 3 a. m.," by Stephen Gratton & Co., drew a majority of the applause. The little playlet is thriving with clever expressions and situations. The timely presence of the milkman solves the mystery. Another act that called forth an encore applause but was not gratified was the series of overtures and imitations by the world's premier banjoists, Kimball and Donovan. Their selections include a number of

difficult renditions. "Creo" is advertised as the highlight of the bill at the Majestic this week. She is called the eighth wonder of the world, the enigma of the twentieth century. It is another of those mysterious acts and the explanation of it will be rewarded with \$25. The management still has the twenty-five dollars.

At the Novelty.

The Readick company in the farewell engagement at the Novelty theater this week presents in an elegant production the famous Alexander Dumas masterpiece "Monte Cristo." And in "Monte Cristo" the Readick company has achieved its greatest triumph of the Topeka engagement. Frank Readick, who plays the title role, has been seen to no better advantage in Topeka than in this production, which gives him an opportunity to display his versatility. Jack Thomas, Chris Nelson, George Spaulding and Harry Kleffer do some clever acting. Of the feminine roles Miss Freeman as Mercedes has a heavy part which she handles with ease and a naturalness that is particularly impressive. Geraldine Wood and Bessie Drake come in for extended applause. There is no way so accurate in judging the approval of a production by an audience as the volume of applause, and "Monte Cristo" certainly met with a good reception last night.

LIFTED HER SKIRTS.

Woman Passenger Was Compelled to Pay Higher Duty.

New York, March 29.—Because a woman cabin passenger on the French liner Touraine lifted her skirt carelessly, Uncle Sam is richer by fifty dollars in duty. As she came down the gang plank an inspector noticed that the woman wore a very fine petticoat, too fine, he thought, for any one but an heiress. An investigation under an outside dress the woman wore an expensive evening gown. The duty was paid yesterday and the woman was allowed to take the garment away.

HIS REWARD HAS COME.

Man Who Saved Life of Diaz Is Remembered by the President.

Mexico City, March 30.—Florencio Cortez, who some years ago saved the life of President Diaz by assisting in the capture of an insane man, who had attacked the president during a celebration of national independence, has been rewarded by the chief executive of the republic.

Three young children of Cortez were placed in a school at the expense of President Diaz and Cortez himself given employment at the palace. It was not until recently that the president learned that Cortez was in poor circumstances and he immediately set about helping him.

WIRELESS BALANCE SHEET.

Shows an Increase in Returns for Short Distance Messages.

New York, March 30.—Some interesting facts concerning telegraphy are brought out in the balance sheet of the Marconi company of America of January 1, 1909. The secretary says:

"Receipts for short distance i. e. shore to ship within a radius of 300 miles, show an increase of \$5,000 in gross, but on the other hand receipts for long distance transmission have fallen off considerably, partly because some of the steamship lines could not under the depressing circumstances afford the luxury of daily news for their passengers and partly because our long distance receipts depend to a great extent on the traveling public."

Judge Phillips's Secretary Dies.
Kansas City, March 30.—Edgard P. Powell died at his home here today of pneumonia, aged 33. He had been ill 12 days. Mr. Powell was private secretary to United States Judge John F. Phillips. He came to Kansas City 15 years ago from Littleton, Colo.

WON'T HURT STEEL.

Gates Is Not Worried Over Prospect for Free Iron.

New York, March 30.—John W. Gates does not think that the steel industry in this country will be affected by the removal of duty on iron ore. Mr. Gates, who has returned to New York after several weeks absence, had this to say:

"When the new tariff becomes a law confidence will be rapidly restored. I am not interested in the stock market but it looks as though it would go higher. There are certain stocks on the list I feel sure are going to advance. "Business is gradually improving. I am largely interested in steel properties and I do not believe the elimination of the duty on iron ore is going to affect American steel industries in the least."

NEW BRIDGE OPENED.

Mayor McClellan Led Party Across Queensboro Structure.

New York, March 30.—The new Queensboro bridge, extending across the East river from Manhattan to Long Island, was opened for public use this afternoon. Mayor McClellan led a party of city officials across the structure, after they leave the city hall in automobiles. The bridge has been six years in building. It is 7,636 feet long with a total weight of \$3,420,000 pounds. It contains four trolley tracks, two elevated railroad tracks, two floors, a roadway 53 feet wide and two foot paths, each 16 feet wide. It was brilliantly illuminated by electricity last night.

TRAFFIC NEARLY DOUBLES.

Heavy Increase in Colonist Movement Over Harriman Lines.

Chicago, March 30.—As indicating the heavy movement of colonist traffic this year, officials of the Harriman Pacific lines, including the Oregon roads, estimate the volume to that territory this month and next month at 70,000 against less than 35,000 a year ago.

The record spring movement for colonists was in 1907, when 63,400 were carried west. In March and April, in the first four days of March 1,262 colonists went west by Southern Pacific gateway—El Paso and Ogden—as compared with 768 a year ago.

One of the Essentials

of the happy homes of to-day is a vast fund of information as to the best methods of promoting health and happiness and right living and knowledge of the world's best products.

Products of actual excellence and reasonable claims truthfully presented and which have attained to world-wide acceptance through the approval of the Well-Informed of the World; not of individuals only, but of the many who have the happy faculty of selecting and obtaining the best of the world affords.

One of the products of that class, of known component parts, an Ethical remedy, approved by physicians and commended by the Well-Informed of the World as a valuable and wholesome family laxative is the well-known Syrup of Figs and Elixir of Senna. To get its beneficial effects always buy the genuine, manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists.

SNAPSHOTS OF THE WEEK

Judge Dana of the district court will commence hearing the city cases next Friday.

Those who gave the Indian Crazy Snake his name deserve honorable mention as prognosticators.

If the law can be juggled in the proper manner the south side dikes will be built before the freshets along the river.

There are about 2,000 slogans submitted to the Commercial club. Just think of the vast amount of good money wasted on postage!

Tennis courts all over the city are being put into condition for the coming tennis craze which always hits a town about this time of year.

George Sharitz, clerk of the United States district court, has gone to Kansas City to confer with Judge Pollock on federal court matters.

Councilman Howard says that he is waiting for some supreme court decisions before he continues his fight on the sign boards over the city.

The Washburn baseball team lost their first game with St. Marys—and the score added together equaled 26 runs. The game was bad enough to be good.

There will be a meeting of the city council tonight at the council chamber in the city hall. A number of important propositions concerning the public at large will come up.

However it is done, a wig plays a great part in the illusion of the creation of Creso at the Majestic which does not belie the accepted role of the wig as an aid to illusions.

Frank Hulen, brigadier general of the Christian Volunteers, is here for the purpose of opening a branch. He will hold the first meeting at 118 East Fourth street Thursday night.

The Sardou cannery factory is making strenuous efforts to clean up the annual contracts. The directors say that if the weather is good the factory will be a busy place this summer.

Chief of Police R. W. Eaton will be surprised upon his return from the Pacific coast to learn how hard some people are trying to present him for adoption Chief Walmath's baby, the fire department.

Strange how the old heads get tired of the customary round of affairs. A whole division of the Herpicide brigade have already procured the favorite section of the floor to see some of the "young things" at the Washburn play.

There are still a few copies of the State Journal's great afternoon edition left. They send a few copies to your friends. Only two cents a copy. Bound in paper wrapper the same price. Call at the State Journal office.

The seat sale for the Ben Greet players opened three days in advance of the attraction and as a result most of the desirable seats were secured by those "on" before the usual patrons knew it.

Mr. John Waters, formerly known as Johnnie Waters, has publicly announced that he will take unto himself a wife within one year, and the unsuspicious "feme" of the city are notified of the declaration so that they may not be taken unawares.

Queen Victoria, the pet chicken to a Clay street housewife, has devoted a great deal of time of late, has developed tall feathers and a comb, besides a crow, and the question naturally arises in her mind at this time: "What is it?"

At the same time Chief Eaton is mentioned for fire chief, Dick Zellars is spoken of as likely material for a new chief of police. Once a horseman of the Prussian army, it can be said that Zellars looks better than any other man in Topeka on a horse.

The manager of the Washburn Dramatic club is running about like a cat with a head off and lying awake nights trying to devise some system of advertising which will startle the old heads and proclaim his attraction to every lover of thrilling drama.

The street car crews are complaining because small boys over the city are removing the rubber spring switches from their turns over the city. Last night the switch key had to be used at a number of places. It's a hard day when a small kid can't rig up something to do.

On a bill that evening gave the audience a correction imitation of the manner in which a theater manager extracts an unruly patron from the front row. Manager Gorman gave a boisterous youngster his ten cents and also "red ball" orders.

The owner of the hotel at Meriden, William Hutchinson, who received inquiries at the Rock Island depot while alighting from a street car has decided that he will not sue the company for damages—instead he accepted their terms of \$50 cash and the payment of his bill does it.

Mayor Green says there is nothing to this alleged talk about appointing Chief of Police Eaton to the position now occupied by Fire Marshal Williams. Topekans has always had the reputation of having the best fire department in the country and there is no reason for a change in this sentiment.

The grading on the Washburn college campus between the Dramatic club gate and the Thomas gymnasium is finished and the macadam which will be constructed of chippings from the new gymnasium, will be laid at once. When College avenue is paved to Hutton this will make one of the prettiest drives in the city.

The Democrats are getting enthusiastic about the coming city election and they decided at a meeting last night to contribute money from their own pockets as campaign fees. They have made many plans for the coming election day—foremost of which are the contemplated printing of hand bills containing their issues and their promises.

SLOT MACHINE HARVEST.

Amounts to \$12,000,000 Annually in Nickels at Frisco.

San Francisco, March 30.—More than \$12,000,000 in nickels is the annual tribute to San Francisco to the ever busy slot machine, according to Supervisor Conte in answering P. J. Healy, a member of the grand jury, who appeared before the board of supervisors in reference to the proposed anti-slot machine ordinance, and announced that the inquisitorial body would have recommendations to make on the subject as a result of its investigation.

The supervisor's exact figures were \$12,000,000. He combined a method to ascertain the amount of revenue that would be lost to the city by the suppression of these devices, on the ground that furo games and other disreputable things might be licensed with equal violation to conscientious scruples.

SHE RESISTS THE LAW.

Lady Frances Broome Is Deprived of Her Job as Executrix.

Santa Barbara, Cal., March 30.—Not having made an accounting of the estate for 18 years, Lady Frances Broome has been removed by the court here as executrix of the \$270,000 estate left by her husband. Her eldest son, Thornhill, who petitioned the court for an accounting, was made special administrator. "Lady" Broome is an English woman whose eccentricities have long kept her in the public eye. She ignored the court order to have an attorney, saying that she could find none she could trust. The defendant collapsed in court and remained long, weeping bitterly. Other heirs of the estate are Amy, a daughter, and Montague, a son. The property consists of 22,000 acres near Ventura and property in Buxton, England. The family is well known in San Francisco. "Lady" Broome refused to appear here on her refusal to be amenable to American law procedures. She allowed her home in the city to be sold rather than pay \$450 for street work. Since then \$17,500 has been refused for the property. During this row with the contractor Mrs. Broome was sentenced to one hour in jail, which she served. Again she allowed a \$6,000 house to go by default. She also lost a carriage rather than pay a court reporter's bill.

Thornhill, the son, says the mother disinherited him and refuses to speak to him. "Lord" Broome died in 1891.

MAKES SHORT STOP.

The Hamburg Halts at One of the Azores Islands.

Ponta Del Grada, Island of San Miguel, the Azores, March 30.—The teamship Hamburg with ex-President Theodore Roosevelt arrived here unexpectedly at 8 o'clock this morning. The vessel stopped briefly to give Mr. Roosevelt an opportunity of seeing the beautiful scenery of the island with its springs and gardens. There was a great excitement among the people, all of whom were eager to obtain a glimpse of Mr. Roosevelt.

Mr. Roosevelt came ashore at 10 o'clock in the morning. A large crowd assembled at the dock and gave him an ovation. He was greeted by Edward A. Creevey and William W. Nicholas, respectively the American consul and vice consul at St. Michaels, with whom he drove around. Ponta Del Grada in an automobile. In this trip Mr. Roosevelt was accompanied by the members of his party.

The Hamburg steamed out of Ponta Del Grada at half past eleven o'clock this morning. Her next stopping place is Gibraltar, where she is due Thursday.

His drive around Horta yesterday Mr. Roosevelt was accompanied by Moses Benarus, the American consul. A large crowd had assembled at the wharf while Mr. Roosevelt was viewing the city and when he returned to the docks to go out to the Hamburg, he was given an enthusiastic send off by the English, German and Portuguese residents of Horta. He returned to the steamer in the consul's boat.

While at Horta the other members of the Roosevelt party went on a shooting expedition and got 15 birds of five different species.

Streets Ran With Wine.

Sheriff John Wilkerson, County Attorney John Schenck and R. L. Thomas, clerk of the district court, made way with five barrels of wine at Rosville Monday afternoon—that is, they emptied it into the street, there being no sewer available. The destroy-

THE Palace CLOTHING CO.

You Know This is "Style Show" Week Here and

we're more interested in your pleasure and satisfaction here than in your money. We like to show such goods as we have here; we enjoy looking at them ourselves. If you don't want to try them on, we have living models here, who will show you how they look; and we'll help you find what you want.

It will be an education in clothes to you to see our store; our novelty weaves in men's suits, chosen from the best weavers of Europe and America; dress clothes, blue and black art weaves, marvelous stock of overcoats, rain-coats, auto coats, dress coats.

THIS is a day of speculation; and we're specialists in good clothes; we have an organization and a force of specialists always aiming at higher qualities, better values, higher ideals of doing business.

AT THE BAKING SCHOOL.

Wednesday we will give to one of our visitors a Gold Loaf Cake. The lucky person Monday was Mrs. F. M. Drake. Wednesday baking will be: Gold Loaf Cake, Angel Food in Jell, Fruit Muffins.

WEDNESDAY WILL BE THE LAST DAY

"Sunkist"

California
Oranges
and Lemons

For Health Mostly Seedless

California oranges were never so luscious as this season. In the seedless "Sunkist" brand you are offered the pick of the crop. Let these fine, round, golden, juicy oranges head your list of breakfast foods. Keep them on hand all the time—they are most healthful. A delicate, succulent tonic, most tempting to the eye—most satisfying to the taste. "Eat all the oranges you can," says the physician. Give them to the children for health. Remember the name of the best—"Sunkist." An army of 25,000 men is employed in the cultivation and harvesting of the famous "Sunkist" Oranges and Lemons.

Your Dealer Has Them

Go to your dealer. Get "Sunkist" brand and see how choice they are in every way. Every orange and lemon is hand-picked, selected. You'll find no other oranges so luscious, so exquisitely flavored; no other lemons so plump, thin-skinned and juicy. For flavoring cakes, jellies and ices—for a hot lemonade to break up a hard cold or cure the grip—use "Sunkist" Lemons.

MILITARY PAGEANT.

Planned as a Fall Attraction for Chicago.

Chicago, March 30.—A military and naval pageant is being contemplated as a fall treat for Chicago and an attraction for visitors by the convention committee of the Chicago Association of Commerce.

The project, which is still visionary, includes elaborate manoeuvres in the south parks by about 5,000 infantry, cavalry, field and mountain artillery, signal service, and possibly a balloon corps, and an extensive naval regatta on the lake front.

Steam Shovel Record Broken.
Washington, March 30.—A single steam shovel at work on the Panama canal recently removed 3,941 cubic yards of rock and earth in a working day of 8 hours. This breaks all records for a single day's excavation by one steam shovel. The shovel was actually at work six hours and fifty minutes.

Does not Color the Hair

Ayer's Hair Vigor is composed of Sulphur, Glycerin, Quinine, Sodium Chloride, Castile Soap, Alcohol, Water, Perfume. Show this to your doctor. Ask him if there is a single injurious ingredient. Ask him if he thinks Ayer's Hair Vigor, as made from this formula, is the best preparation you could use for falling hair, or for dandruff. Let him decide. He knows.
